Behaviour & Information Technology

An international journal on the human aspects of computing

Contents
Volume 23 (2004), Numbers 1–6

Taylor & Francis
Taylor & Francis Group

NUMBER 1 JANUARY–FEBRUARY 2004

Editorial i

Improving the User Interface

Slide bar: analysis of a linear input device 1
L. E. Chipman, B. B. Bederson and J. A. Golbeck

Improving performance on procedural tasks through presentation of locational procedural context: an empirical evaluation 11
J. J. Ockerman and A. R. Pritchett

Denotation and connotation in the human – computer interface: The 'save as . . .' command 21
C. Condon, M. Perry and R. O'Keefe

It's not all good

Why are mobile phones annoying? 33
A. Monk, J. Carroll, S. Parker and M. Blythe

CRT monitors: do they interfere with learning? 43
K. J. Garland and J. M. Noyes

Long-term working memory and interruption messages in human – computer interaction 53
A. Oulasvirta and P. Saariluoma

Comparative usability evaluation 65
R. Molich, M. R. Ede, K. Kaasgaard and B. Karyukin

NUMBER 2 MARCH–APRIL 2003

Editorial iii

Experimental studies of usability

Reading vertical text from a computer screen 75
J. Laarni, J. Simola, I. Kojo and N. Risto

Computerized feature systems for identifying suspects: empirical tests using crime scenarios 83
E. Lee, T. Whalen, M. Terris and A. McCarthy

Emotion and computers

Empathy and online interpersonal trust: a fragile relationship 97
J. Feng, J. Lazar and J. Preece

Loyalty to computer terminals: is it anthropomorphism or consistency? 107
S. Shyam Sundar

Modelling human–computer interactions

A modelling method for the development of groupware applications as socio-technical systems 119
T. Herrmann, M. Hoffmann, G. Kunau and K.-U. Loser

Early use of Internet-based educational resources: effects on students' engagement modes and flow experience 137
L. Hedman and P. Sharafi

NUMBER 3 MAY–JUNE 2004

Editorial ii

Special section—HCI studies in management information systems

Guest Editorial: HCI studies in management information systems 147
P. Zhang, F. Fui-hoon Nah and J. Preece

A study on tolerable waiting time: how long are Web users willing to wait? 153
F. Fui-hoon Nah

Do size and structure matter to mobile users? An empirical study of the effects of screen size, information structure, and task complexity on user activities with standard web phones 165
M. Chae and J. Kim

The impact of web page text-background colour combinations on readability, retention, aesthetics and behavioural intention 183
R. H. Hall and P. Hanna

Case studies in HCI

Senior government executives' use of the internet: a bruneian scenario 197
A. H. Seyal and G. G. M. Pijpers

Adopters and non-adopters of internet stock trading in Singapore 211
T. S. H. Teo, M. Tan and S. Nee Peck

NUMBER 4 JULY–AUGUST 2004

Editorial iii

Empirical studies

An empirical evaluation of textual display configurations for supervisory tasks 225
A. Parush

Consumer reactions toward clicks and bricks: investigating buying behaviour on-line and at stores 237
G. J. Browne, J. R. Durrett and J. C. Wetherbe

The effects of multimodal feedback on older adults' task performance given varying levels of computer experience 247
J. Jacko, V. K. Emery, P. J. Edwards, M. Ashok, L. Barnard, T. Kongnakorn, K. P. Moloney and F. Sainfort

Reviews

On-the-move destination entry for vehicle navigation systems: unsafe by any means? 265
G. E. Burnett, S. J. Summerskill and J. M. Porter

The cognitive task analysis methods for job and task design: review and reappraisal 273
J. Wei and G. Salvendy

NUMBER 5 SEPTEMBER–OCTOBER 2004

Editorial iii

Everyday applications

Hearing only one side of normal and mobile phone conversations 301
A. Monk, E. Fellas and E. Ley

CASSM and cognitive walkthrough: usability issues with ticket vending machines 307
I. Connell, A. Blandford and T. Green

Medical applications

The acceptance of a computerised decision-support system in primary care: A preliminary investigation 321
P. van Schaik, D. Flynn, A. van Wersch, A. Douglass and P. Cann

Are electronic medical records associated with improved perceptions of the quality of medical records, working conditions, or quality of working life? 327
B.-T. Karsh, J. W. Beasley and M. E. Hagenauer

Evaluation frameworks

Architectural criteria for website evaluation – conceptual framework and empirical validation 337
S. Hong and J. Kim

Predicting electronic service continuance with a decomposed theory of planned behaviour 359
M.-H. Hsu and C.-M. Chiu

Book Review

User-Centered Website Development: A Human-Computer Interaction Approach 375
C. Shannon

NUMBER 6 NOVEMBER–DECEMBER 2004

Editorial iii

Review

How physical text layout affects reading from screen 377
M. C. Dyson

Survey

Computer self-efficacy in an ongoing use context 395
X. Deng, W. J. Doll and D. Truong

Model

Internet privacy concerns and their antecedents – measurement validity and a regression model 413
T. Dinev and P. Hart

Short paper

Using Hollywood one-liners to illustrate the communication process: an interactive approach 423
S. Dunphy

Experimental techniques

The speed of mouse-click as a measure of anxiety during human-computer interaction 427
M. Macaulay

Experiment

Using 3D sound as a navigational aid in virtual environments 435
R. Gunther, R. Kazman and C. MacGregor

Book Review

Leonardo's Laptop: Human Needs and the New Computing Technologies 447
D. J. Bouvier
